### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 15 and 18-20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Godwin. In Godwin, the claimed air plenum corresponds to housing 26, the upper housing corresponds to receding surface 14, the lower housing corresponds to vertical surface (unlabeled), the coupling joint corresponds to U-shaped member 40, and the air transfer device corresponds to the air conditioning equipment (column 3, line 26). Or, the claimed air plenum corresponds to bridging 28, the coupling joint corresponds to the remainder of the housing 26, and the vent (claims 17 and 21) corresponds to U-shaped member 40.

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1, 2, 4-15 and 17-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Godwin in view of Roan et al. Godwin discloses the claimed invention except for air plenum. Roan et al. teaches that it is known to provide an air handling sys-

tem with a floor duct assembly as set forth at column 4, line 66. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the vehicle of Godwin with the air plenum, as taught by Roan in order to supply air to the floor area.

### ***Response to Arguments***

5. Applicant's arguments filed December 20, 2004 have been fully considered but they are not persuasive. Applicant alleges that the adjustable grill of Godwin is within the line of sight of the occupant and is therefore not hidden. To the contrary, Godwin states at column 4, lines 26-44:

A tab 66 is formed on bottom wall 44 adjacent leading edge 46 to provide a graspable handle for adjusting the position of the grille as will be seen below. ... should it be desired to direct air horizontally or downwardly, the main frame may be positioned as shown in solid lines or as noted by position 68, respectively.

Thus, it can be seen that the grille can be used in adjustable positions.

6. As to applicant argument that it is unclear from Godwin that the main frame 24 is hidden from view, this appears to be dictated by the physical height of the occupant and/or the position of the adjustable seat from the dashboard.

### ***Conclusion***

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

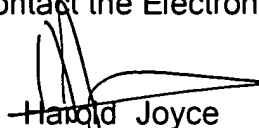

Art Unit: 3749

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
